“The Faces of Tulsa Architecture” on Display in Downtown Tulsa

Tulsa, OK – (April 29, 2008) – Crafton Tull Sparks participates in a visual project to raise the public's awareness of buildings in downtown Tulsa. Six of the firm's architects are incorporated in “The Faces of Tulsa Architecture” design on display in the windows of the Adam's Building at 403 S. Cheyenne for the next three months.

AIA Eastern Oklahoma, a Chapter of The American Institute of Architects, is leading FOCUS Tulsa (Fostering Originality and Creativity in an Urban Setting), an initiative designed to focus the community's attention on downtown Tulsa through the installation of architectural imagery. Kanbar Properties has allocated street-level window space for FOCUS Tulsa at six locations. Enlivening storefronts and offices with architectural imagery not only enhances the sidewalk experience of pedestrians and passers-by, but serves to raise the public's awareness of the many retail, residential, and commercial opportunities available within the central business district.

Crafton Tull Sparks has 315 employees with offices in Conway, AR, Little Rock, AR, Oklahoma City, OK, Rogers, AR, Russellville, AR, Tulsa, OK and Wichita, KS. Founded in 1963, they provide architectural, engineering, interior design, landscape architecture and surveying services across the nation.
