Wichita

For Immediate Release: Friday, October 3, 2008

Little Rock, AR – Rob Gaddis has joined Crafton Tull Sparks as an engineering designer. He has four years of plumbing design and ten years of CAD experience. Rob will strive to deliver a safe, effective and efficient plumbing design based on clients' needs.

Mark Redder, project manager, of Crafton Tull Sparks has received LEED® accreditation. This brings the company's total to 18 employees who are knowledgeable in green design practices. LEED, Leadership in Energy and Environmental Design, is the standard for design and construction of green buildings. The company has sponsored a number of in-house training sessions and has provided an employee incentive, "Take the LEED: Get Smart with Crafton Tull Sparks," to prepare employees for the LEED accreditation test administered by the U.S. Green Building Council. Mark is now eligible to be entered into a company drawing to win a 2008 Smart Car, compliments of Crafton Tull Sparks.

Crafton Tull Sparks has 320 employees with offices in Conway, AR, Little Rock, AR, Oklahoma City, OK, Rogers, AR, Russellville, AR, Tulsa, OK and Wichita, KS. Founded in 1963, they provide engineering, interior design, landscape architecture and surveying services across the nation.
