Architecture and Engineering Firm
Celebrates 45 Years

Rogers, AR – Crafton Tull Sparks celebrates 45 years of business this month. Founded in November of 1963 by Lem Tull and Bob Crafton, they merged with Gary Sparks' firm SPARKS in 2006. The combined firm now has offices in seven cities and is ranked 45th on The Zweig Letter's 2008 Hot Firm List, representing the 200 fastest-growing architecture, engineering, planning, and environmental firms in the United States or Canada.

"We've been very blessed with excellent clients through the years," said Matt Crafton, director of engineering. "A 45-year history of firm experience is significant in our industry. We are incredibly proud of the employees, former and present ones, who have made this possible."

Crafton Tull Sparks also recently announced that they have 42 LEED® accredited employees. This level of commitment firmly establishes the company as a leader in sustainable design and construction of green buildings.

In October the firm was ranked 14th by South Central Construction magazine on their Top 80 Designers List. The list compared 2007 billings for designers with a permanent office in Alabama, Arkansas, Louisiana, Mississippi, or Tennessee.

Crafton Tull Sparks has 335 employees with offices in Conway, AR, Little Rock, AR, Oklahoma City, OK, Rogers, AR, Russellville, AR, Tulsa, OK and Wichita, KS. Founded in 1963, they provide architectural, engineering, interior design, landscape architecture, planning, and surveying services across the nation.
