Two Crafton Tull Sparks Employees Receive LEED Accreditation

Rogers, AR – Brandon Vick, I.A., intern architect at Crafton Tull Sparks, has received LEED® accreditation. He has a bachelor's degree in architecture from the University of Arkansas. Brandon has over four years of experience. He is an American Institute of Architecture associate member, active in the firm's Developing Professionals group and a Paint the Town Red committee member for the American Heart Association.

John Krentz, P.E., project engineer in the civil department in the firm's Russellville office also received LEED accreditation. He has a bachelor's degree in civil engineering from the University of Arkansas. John has five years of experience and is a member of the American Society of Civil Engineers and the National Society of Professional Engineers.

LEED, Leadership in Energy and Environmental Design, is the standard for design and construction of green buildings. The LEED accreditation test is administered by the U.S. Green Building Council. According to the Green Building Certification Institute (GBCI) website, Crafton Tull Sparks has more LEED accredited employees than any other architecture/engineering firm in Arkansas or Oklahoma.

Crafton Tull Sparks has over 300 employees with offices in Conway, AR, Little Rock, AR, Oklahoma City, OK, Rogers, AR, Russellville, AR, Tulsa, OK and Wichita, KS. They provide architectural, engineering, interior design, landscape architecture, planning and surveying services across the nation.
